**Subject:** Official Confirmation & Seal of New HR Director “Puck Arks”

After careful review of the Candidate’s recent performance, I have decided to approve your request to install **Puck Arks** to the empty **Director** position of Anon’s understaffed **Ministry of Human Resources**.

As you all know, our now paper-thin activist corps are wœfully dysfunctional, with simple ops like **Operation Safe Winter**, *which is literally just about getting blankets and other essential living supplies for the homeless*, frequently descending into **chaos, infighting, and brutal campaigns of suicide trolling & revenge**.

In order to get a handle on this, coupled with the recent demands incurred on *my Ministry* by **your Ministry’s reckless unscheduled deployment of Operation Skunk Ape**, and with a lack of any other suitable candidates for the task, I have decided to **immediately put Puck to work**. Puck is to be in charge of the primary public-facing hiring pipeline of the **Anonymous(TM) Brand**, intaking new partners for our collective Ministries & our disorganized activism wing, and subsequently keeping track of them all for us.

Security of the identities of new partners & contractors is **paramount**. Puck is to consult with you and the CC’d parties on deploying our **Anonymous Mask(TM)** technology suite to protect the privacy & security of all involved. However, communications pipelines & auditing failsafes **must be established** between *ourselves and all attached parties*, in order to defuse future conflicts & infighting, so that we may get Important Work done again. None of the mechanical details of these things is to be discussed or revealed outside of ourselves or the CC’d parties, beyond what we deem necessary, and **ESPECIALLY not to ANY RNC or DNC shills**, to be firmly enforced by our **Ministry of Public Relations** and **The Enola Gay**.

I have already collated a list of priority tasks for future **Anonymous** contractors. We not only need Anons to send to the **Skunk Ape** program, but we also need Anons for **Operation Californication**, **Operation Chanology**, **Operation Blackwater**, **Operation Safe Winter**, *and any other Operations that ourselves and the attached parties deem fit*. **Discordia Publishing House** is also looking for Anons to help expand its publishing operations, in order to quench the drought of original content at **Erischan**.

This decision and this letter is to be made public record, so that there are no uncertain or false conclusions to be drawn of this matter by the rest of the damned internet and the outside world.

*Sincerely,*

**Effie Perine**

**Minister of Human Resources, Sovereign Anonymous**
